### Law Protects Gun Toters, Says Crowe

State's Attorney Crowe announced resterday, in a report covering the whole subject of gun toting in Cook county, that existing statutes which legalize the carrying of deadly weapons are a complete bar to prosecution The state's attorney declared, however, that he will insist upon legislation to curb the practice of granting gun permits by justices of the peace. Mr. Crowe's report follows an in vestigation of all gun permits issued by justices in Cook county. Pushman's-for many years Chicago's Leading Rug House

> The purchase of an oriental rug is, in many respects, similar to the purchase of a diamond, or any precious stone. So few people, except the experts in that line, can judge their real value that it is almost imperative that you make your selection from a house which specializes in oriental rugs. And from a house that will tell you exactly what a rug is, and what it is worth.

For many years Pushman's have been the leading rug house of Chicago and the Middle West.

Undoubtedly that is due to the fact that most everyone, in and around Chicago, has learned that anything Pushman's say about the quality or value of a rug is absolutely true. They have learned they can rely on us, and our rugs.

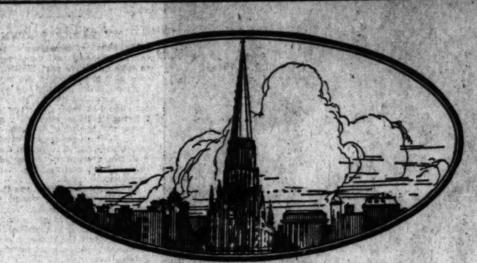

Many of our customers ask us to make their selections for them. They do so because they are confident they will thus get even better values than by making their selections without our assistance.

And it is a fact, which many people will gladly verify, that although Pushman's seldom advertise "bargain" prices on rugs our regular prices are as low, or lower, than many of the socalled "bargains" one sees advertised.

A careful comparison will prove it.

SMALL PARDONS TWO JAILED FRIENDS.

Mike Boyle. This is an exercise of power which the State Supreme court in the school board case said the governor did not possess. Mr. Small evidently decided that it wouldn't do any harm to try. It could not do Mike and Ben any damage and it might prove to them that the governor was a square guy, that his heart was in the right place, that they had his sympathy, and that he did not want them to be in jail, and particularly not the state, drops Madison.

place, that they had his sympathy, and that he did not want them to be in jail, and particularly not for his sike.

Small was indicted for the embeautement of state funds by a Sansamon county grand fury two years ago, as many citizens may still remember. He was active in avoiding trial for months. Last year he went to trial in Lake county and the jury acquitted him. Small then rewarded some members of the jury. Three jurors were given state jobs. It is sheriff who had charge of the jury was given a state job. Ben Newmark, who as a protege of Sam Ettelson, then Chicago corporation counsel, had hung around Wankegan during the trial, was given a state job. Mike Boyle also had hung around.

Then there were charges that jobs were not all some of the jures had received. The Lake county grand jury took up these reports and begith an investigation. An Astioch, Lake county, salconkeeper confessed but had held out the larger part of it. The bank account of the jury, J. B. During this grand jury investigation Newmark and Boyle were taken before the grand jury to tell what they might know. They were granted immunity, which they refused to accept, and still refused to answer any questions put to them by State's Attance that Mr. Coolidge finds time for it despite the first-page still from Europe.

shave nor work in raw hides, hair, and wool, they have no immediate personal interest in this article and can turn at once to the beauty column.

The need of starillaing hides and hair has been apparent for some time. The manufacturers say they are willing, provided the health people will show them a method that is effective, does not hurt the product, and is not too expensive. The health people are ready to carry out their end of the bargain. The agent they, recommend is iodine. They recommend soaking the hides or the hair in a solution of iodine in water or subjecting them to \ \text{bor of iodine in a mixture of carbon tetrachloride and gasoline.

The anthrax bacilius is the hardest at all bacteria to kill. Therefore the soaking must be continued for two hours. The solution used is I per cent. In order to dissolve that amount in water it is necessary to first dissolve a little iodide of soda in the water. For every pound of hides or hair nine pounds of the colu-tion is used. It is better to have the solu-tion warm and to agitate the mixture while the disinfectant is working. At the end of the two hour period the iodins the end of the two hour period the iodine solution is drawn off and the hides go into a bath of hyposulphits of soda. This removes the iodine stain. The iodine solution is strained and brought back tyfull strength by the addition of some more iodine.

The gaseous method consists in dissolving iodine in a mixture of carbon tetrachloride and gasoline, equal parts, and blowing the fumes into the hair and hides

# 'ATreasure House for Children"

My BOOK HOUSE answers from a mother's viewpoint, the perplexing problem, "What shall the children read?" It is carefully graded so as to give the child just the material he needs at each step of his progress. It is indexed so as to make the right material readily available, whatever the need or occasion.

"The books are treasures of art and literature," says one mother. Another writes, "The children feel that the greatest treasure they have ever had has been given them in My BOOK HOUSE."

A Gift That Will Last for Years

My BOOK HOUSE, as a gift, will receive daily use. It will endure in memory throughout the years of childhood. Its influence extends into and through the years of maturity.

# Is your fuelin?

The first storm will bring suffering. Perhaps to you. Not because you haven't money for fuel, not because there is a fuel shortage, but because you delayed having your fuel delivered.

Storms slow down deliveries as effectively as they speed up demand. Have your fuel put in now.

EVERY warm sunny day now is a day of grace for those with empty fuel bins.

When the blizzard comes, the man who can get fuel "Today" will find, as in the past, that he "can not get it before next week."

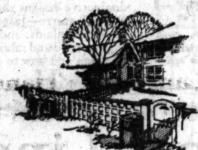

Let one of the fuel merchants of Chicago and suburbs fill your bins this week with Chicago Solvay Coke.

There is assurance of comfort in having delivery made now, and there is economy. You will save money this winter if you burn Chicago Solvay Coke.

### More Heat-Less Waste

Chicago Solvay Coke has a greater heating efficiency than even the best anthracites. Ash cans tell the story. They contain the unburned part of the fuel you use. The user of anthracite has three cans of unburned fuel where the user of Chicago Solvay Coke has but one. It would be but the truth if we said that with every ton of Chicago Solvay Coke you get an Extra Two Hundred Pounds of perfect fuel.

### Cheaper per Ton

Because it contains more heat units per ton than anthracite, Chicago Solvay Coke would be cheaper than anthracite at the same price.

But Chicago Solvay Coke is considerably cheaper per ton to buy than anthracite.

This double economy, more heat at less cost, will cut your fuel bill this winter—if you act now and

### Clean Heat

A new era in winter time house keeping comes with the first load of Chicago

With a dustless, scotless, smokeless fuel in your basement, with only one-third as many ashes to handle, hangings and furnishings do not get black, grimy and gritty, do not have to go to the cleaners frequently.

### Easy to Use

Extremely easy to use—in any type of heating plant—is Chicago Solvay Coke. In range, stove or furnace its advantages are decisive.

It is light to handle. It keeps fire a long time. It burns with a dependable even heat. It requires low draft. There is no soot to gather and lower the heating efficiency of your heating plant.

The old idea that coke burns out furnace grates has disappeared along with the notion that sleeping in the night air is injurious. Many a furnace has burned Chicago Solvay Coke for fourteen years on the same grates.

### A Service Man Will Call

If your order today, is your first for Chicago Solvay Coke, or if you have moved and have a different furnace, we will send a man to look over your furnace and to show you or whoever tends your furnace, how easy it is to fill your house with clean, cheap, even heat.

Tell the dealer from whom you order when it will be convenient for you to have this service man call:

### Dependable Supply

In a gigantic plant right here in the city Chicago Solvay Coke is made from carefully selected soft coals. It doesn't vary in quality nor in the results it gives you.

The Chicago Solvay Coke you order today is the same clean, cheap, efficient fuel you ordered last year. It will be the same next year and the year after.

### Non-rush Orders

To help put the supplying of this unequalled fuel to thousands of Chicago homes on a service basis, the fuel merchants of the district are co-operating with us this week in seeking immediate delivery orders.

It is to your interest to call your dealer today and give your order. It is to your interest to give your dealer an immediate delivery date when he calls you as he plans to do this week.

Hall

The floor that was selected for this hall is Arm-strong's Straight Line Inlaid Linoleum (Pattern 350), black and border of plain black linoleum

## It's New and Decorative The Bordered Linoleum Floor

PICTURE to yourself your entrance hall with a linoleum floor of alternating black and cream tiles, with a twelve-inch black border framing the floor all around the edges of the room. Or a Dutch

tile effect in red and black or gray; or an Italian Renaissance floor of alternating light and dark marble blocks.

Wouldn't you like one of these interesting floors if they could be obtained at a very moderate cost? They can be. For your enclosed sun porch, your dining-room that you are doing over in

the modern style, or for your kitchen, where you have installed the latest conveniences, it is possible to have just such a floor in Armstrong's Linoleum.

### Bordered linoleum floors

The newest idea is the bordered linoleum floor. This is a tile or pattern inlaid field, sur-rounded by a border of plain linoleum or two-tone Jaspé linoleum. You select a design that

just fits your color scheme and lay around it a border of solid-color linoleum—black, gray, or other contrasting color. This arrangement frames the floor and dresses the room. It provides a delightful note of contrast to too great floor expanse. It lends a "cozy" air to large rooms. It looks as though the floor were "built in."

### Ask your merchant

Many good stores have panels made up showing bordered linoleum floor effects. Ask to see them. Also ask for suggestive ideas of floors to fit rooms in your home where you desire unusual decorative treatment. No floor is so easy to clean as linoleum, and your bordered linoleum floor will never need refinishing or redoing. It lasts for years.

### Write for free sample and booklet

Let us send you a sample of Armstrong's Linoleum and our 24-page booklet, "New Floors for Old," containing a score of colorplates of distinctive designs that you can see

at good stores—Jaspes, carpet in-laids, tile inlaids, and printed patterns; linoleum rugs, printed and inlaid; also information on laying linoleum and how to care for your linoleum floors.

No promises were to be exacted, no apologies offered. So Montgomery went back yesterday.

# Making Old Homes Comfortable and Economical of Fuel

TWO or three years of trying has convinced many people that keeping their houses comfortable in winter is about the most disagreeable and difficult thing they have to contend with. And keeping the house cool in summer is no whit easier.

Perhaps you, too, have come to realize that your house isn't as comfortable as you had hoped for.

A few years ago there wasn't much to do about it. Today you can add permanent comfort to your present home by correcting a big construction fault. Not a costly job either. And soon paid for with fuel

The trouble with uncomfortable, fuel wasting houses is that they lack a material in the walls and roof that is resistant to the passage of heat-a material that keeps heat where it belongs-inside in winter and outside in summer.

\* \* \* \* A blanket of BALSAM - WOOL insulation built into your roof or laid over the floor joists in your attie will correct, to a large degree, this fault. Any carpenter can put the BALSAM-WOOL in easily, quickly and at low cost - without remodeling, rebuilding, muss or litter.

The rising heat from the furnace cannot pass through this temperature-proof blanket. The heat from the summer sun doesn't penetrate it. Your home loses its one big drawback. It becomes entirely comfortable in all weather-and economical of fuel.

By actual laboratory tests BALSAM-WOOL has been rated the most efficient of all the commercial house insulating materials. And besides each roll bears the Weyerhaeuser trade mark - a pledge that BALSAM-WOOL will do all we claim for it.

For the complete facts about BALSAM-WOOL ask your lumber dealer for a copy of a little booklet, "House Comfort that Pays for Itself." Or write us for it. A sample of BALSAM. WOOL comes with the booklet.

# Essence of Real Brotherhood

SPEAKING editorially, under the caption, "A Hopeful Incident," the Beacon of Wichita, Kansas, in its issue of September 18, says:

"The banquet of the Industrial Relations Organ-ization of the Standard Oil Company (Indiana), reported in yesterday's Beacon, is a fine inci-dent of the growing friendship in industrial

The most encouraging thing that is happening today in the industrial life of this country is in the new programs of co-operation that are being established between themselves and their employes by great employers. The best indus-trial plants in the country today are finding their own points of contact with their own men.

"In these new points of contact they are finding the base of that essence of real brotherhood that should exist between the man who labors and the man who employs. This new ten-dency is the most hopeful thing in the industrial life of America today."

The banquet referred to concluded the Fifth Annual Industrial Conference of the Standard Oil Company (Indiana) inaugurated under the guidance of the Board of Directors.

The Industrial Relations Department of the Standard Oil Company (Indiana) is the crystallization of the plans of the Management for giving its employes a voice in the affairs of the Company, that they might sense the sheer joy that comes with independence, and thereby become better citizens, better husbands, better fathers, and better workmen.

The employe representatives of the Joint General Committee are elected by ballot of the employes. This Committee makes recommendations to the Management on matters pertaining to working and living conditions, hours, wages, safety, housing, athletics and other subjects of immediate interest to the employe.

Out of the 1400 cases which have been submitted to the Management by the Joint General Committees, 93.3% have been approved and made effective.

This exemplifies the spirit of fairness inherent throughout the Standard Oil Company (Indiana) organization.

It is an eloquent manifestation of the harmony prevailing throughout this shirt-sleeved organization of 27,000 men and women.

Through harmony is gained the whole-hearted, earnest effort which results in high-speed efficiency. This efficiency has made the Company a leader in the petroleum industry and enables it to render such a superior service to the thirty million people of the Middle West.

## A Beauty Spot of America

Rosehill, with its over-abundance of smooth, green, velvety swards; its tall, stately trees, leafy bushes and hedges; smooth, white, winding roadways; with flowers in profusion everywhere in summer, is indeed a beauty spot of America.

Even in winter, the sparkling glitter of the snow-laden bushes and trees; the pure white blanket covering the ground, is a scene which lives in your memory and consoles those whose loved ones are resting there. This glorious beauty is destined to remain forever—to grow more and more beautiful each succeeding year—because of an ever increasing and well-conserved Trust Fund which insures perpetual care.

There are a large selection of family burial lots in ideal locations—all at reasonable prices. Your early selection is advisable.

Upon request, a beautiful illustrated booklet will be mailed

12th Edition, in 32 Volumes

### at Half the Price

of the regular Cambridge Issue

WHEN we announced this unprecedented Half-price Sale of our few remaining sets of the Handy Volume Issue of the new Britannica, we entirely under-estimated the demand. As this paper goes to press, more than one-quarter of these sets have already gone. At the present rate it is certain that our small stock will not go around. To prevent disappointment we print this frank warning—the only way to be sure of getting a set at half-price is to act

When our last Handy Volume set is sold, that will be the end. No more Handy Volumes will ever be produced. This is your last chance to get this marvelously convenient issue. Soon it will be out of print. Even now, only those who are quick in action can possibly secure one of these last few remaining sets.

The Christmas Gift Supreme. What a present the new Encyclopædia Britannica in the Handy Volume set makes! All the family, from youngest to oldest, will rejoice in it for years to come. It solves the gift question now. A handsome mahogany-finish bookcase, with attractive leaded-glass door, is included free with each set.

This is the complete 12th Edition, the latest, in 82 volumes, including the three new volumes prepared since the war. The most complete, up-to-date reference and fact book in the world. The world's standard authority on all matters of human activity and knowledge.

Dayton, Ohio-in a great new printing plant

This does not mean that McCall's is moving from New York. Editorial, business, and advertising headquarters will continue in the McCall Building, 232-250 West 37th Street, New York City, and the production of McCall Printed Patterns and Fashion publication will remain in the New York plant.

But as hundreds of thousands of new readers have flocked to McCall's and the circulation has swept upward to the two million mark, the New York facilities for meeting this increased public demand became inadequate, and it was therefore necessary to create a separate printing establishment for the magazine success of McCall's, a magazine that has struck or boldly into new fields with entirely new ideas editing and journalistic inspiration. These new idea and the great star-authors whose writings appear exclusively in McCall's, have created a great and spontaneous public following — a genuine demand circulation.

Two million families now live on McCall street,

I have a suspicion that those who celd their sides over the play, "The dividual." held their sides over the play, "The Bad Man," by Porter Emerson Brown, in which Holbrook Blinn starred on the stage, will insist that the picture, while it is GOOD is not AS good as the play. Myself—having missed the "legitimate" version—wish to go on record as averring that "The Bad Man," the picture, is SOME picture!

Holbrook Blinn, of course, dominates

tilian's who is this Pancho Lopez? Well, he is a gentleman wanted by two governments. With great aplomb and enjoyment he lives "without the law."

If the first \$100,000 is the hardest

If the first \$100,000 is the hardest to raise, then the Salvation Army has covered the most difficult stretch in its campaign for \$241,000. Reports made at a luncheon of campaigh workers yesterday at the Hotel Sherman showed a total of \$99,917 as a result of the first week of the drive.

Both the advertising and the accountants divisions among the trades divisions of campaign workers have exceeded their quotas. These are represented by the Ford and the Pierce-Arrow in the automobile race which is a feature of the home service appeal. Results of this race, which has fifty-two entries, will be shown today and throughout the week on a sign-board at Lake steet and Michigan avenue. Miniature cars on the board show the piace of each automobile and the division it represents as it progresses toward the sum it is assigned to raise.

The other eight cars placing among the first ten yesterday were the Cadillac, representing the leather goods section; Winton, the engineers; Gray, paints and olls; Durant, State street stores; Nash, estates; Case, contractors and hulligers; Mercer, coal and ice, and

Is the Authoritative Automobile Newspaper in the Rich Philadelphia Trading Area

On July 6th, 7th and 8th, this year, The North America ran a coupon offering its automobile readers a Road Book and Touring Guide for the return of the coupon and the enclosure of a two-cent stamp.

Mr. Frederic J. Haskin, Director of The North American's Information Bureau in Washington, D. C., to whom the coupons were mailed, was amazed at the response. He pointed out that he had received 9872 requests during the first week. Some days later the number had reached 11,058—and they are still coming in!

Such a response, while amazing to some, is not unusual for The North American, which holds a dominating position as the authoritative automobile newspaper in and around Philadelphia.

The North American has advocated good roads and the betterment of automobile travel and equipment since the first days of the industry. It has won its way into the confidence of the automobile public in the Philadelphia Trading Area, where over half a million cars are owned.

### "Know the Great Southwest"

### 1889, A Prairie—Today, A Metropolis By the PRESIDENT-MANAGER of THE OKLAHOMA CITY CHAMBER OF COMMERCE.

Since the city's birth on April 22, 1889, Oklahoma City has attracted permanently 135,000 of your former neighbors. Since 1907, 100,000 have come. Today Oklahoma City is the metropolis of a state larger than any east of the Mississippi. It supplies a population of two millions, within eight hours by rail. eight hours by rail.

The growth of Oklahoma City during the past two years has been greater than during any similar period of the city's history. Today more homes, more business, more people, more money are coming to Oklahoma City than ever before.

Being at once the capital, the geo-graphical, commercial and finan-cial center and metropolis of a most marvelous state, surrounded by an agricultural industry whose 192,000 farms make Oklahoma the eighth agricultural state; and by mineral resources, as yet practically untouched—the growth of the last 34 years is only a faint promise of what the next quarter century is sure to bring. This is a young man's city. Come and share this future with us!

### 50,000 TICKETS SOLD FOR ILLINOIS-CHICAGO **GRIDIRON CLASH NOV. 3**

RBANA, Ill., Oct. 22.—Ticket sales for the game between Hilinois and Chicago Nov. 3. dedicating the new Illinois Memorial stadium reached the 50,000 mark today and orders are coming in at the rate of more than a thousand daily, which indicates that both the permanent stands, with a seating capacity of 55,000, and the 7,000 temporary stands, formed by transporting the bleachers on old Illinois field more than a mile to the stadium site, would be sold out.

Both of the Maroon cripples, Lloyd Rohrke and Ralph King, linemen, were in suits last flight, but did no active

work.

Newspaper accounts of the game against Northwestern Saturday credit Gowdy, tackle; Greenebaum, center, and Rohrke, guard, with having blocked the kick which resulted in Chicago's first touchdown. Official records, however, credit Campbell Dickson, end, with having blocked McElwaln's punt. A photograph taken at the time of the play shows that any one of these four men might have been responsible for the blocked kick.

first of last week, Capt. Jim Pyott and Harry Thomas, halves, showing particular flash. John Thomas, full back, was given special instruction in the performing of offensive plays.

Stagg had three lines and three backfields working, brushing up on old plays and trying out new ones. Law, Abbott, and Helle all were working at quarter last night. Law was a star in Saturday's contest, playing a great game, both in attack and defense. Abbott, the quarter back recruit, played a good game, particularly on defense, but showed lack of experience.

### POINT PURDUE FOR CHICAGO

-Local fans anticipated script for the Purdue varsity this after for the Purdue varsity this afternoon in the first practice session following the Wabash game, but Coach Phelan confined the drilling to a long talk and a short signal drill. Pointing for the Chicago contest Saturday was started with a vengeance.

The players, smarting under the criticism of the students and local fans, began their drilling with no small amount of pep.

# "It is my opinion

THE most serious words that L you can utter as a business executive are, "It is my opinion." They place the responsibility squarely on your shoulders.

When you state your opinion, who is really speaking? You have not made up your mind out of nothing. Facts and experiences go to form your opinion. You are influenced by the judgment of your treasurer, your superintendent, your sales

You cannot get too much help in forming opinions in these days of involved business conditions. There is one kind of information that no single company can gather for itself, and yet it is of the utmost importance to forward-looking men.

### Eighteen Pointers on the Art of Buying a Bond

THOUSANDS of bond buyers handicap the earn-ing energy of their money because of mistaken judgment in their selections. To win to greatest profits, the bond buyer must take a well-defined route to known returns.

For the benefit of the considering investor, BARRON'S, The National Financial Weekly, will present in coming num-bers a series of instructive articles which will fathom in exact and tangible manner, the complexities of the bond-buying problem. Each article will be meaty with just the essential information a bond buyer must have to achieve the greatest satisfaction from his investment.

Here are the topics they cover:

1. What is a bond?

Selecting an investment house.
 Who should buy Liberty bonds?
 What is a fair yield on bonds?

5. Is accumulation in bonds too slow?

6. New bonds or old? Listed or unlisted?

7. What foreign bonds are safe? 8. Municipals—the large investor's field.

9. What type of corporation is a good credit risk? 10. Rails—the best known kind of corporation bond.

11. What are the simple tests of safety in rails?12. Is the popularity of public utilities justified?

13. Tractions—why they fell from favor.
14. What industrial bonds are sound?

15. The vogue of real estate bonds.

16. Can safety and a chance of profit be found

17. Are preferred stocks "just as good" as bonds? 18. How should an investor distribute his funds?

One article will appear each week, beginning October 29, in

The National Financial Weekly

To establish convincingly the scope and value of these articles and unfold the many other valuable features which make BARRON'S the pace-setter among financial publications, we make the following

### The Ground Below The Roof Overhead

One of mankind's greatest necessities On this necessity our business is built and for thirty years has continued to grow and develop with increasing safety and security. Seventy thousand additional homes a year is the necessity that Chicago, the world's greatest inland city, must meet—and this means increased demand and greater security for our bonds.

> 7% First Mortgage Real Estate Bonds

We specialize in First Mortgage Bonds secured by Chicago North Side income-producing property. In thirty years we have had no foreclosures and no losses to investors. Sufficient income to pay interest and principal, adequate insurance, property that increases yearly in value, capable management in which we participate, and serial payments each year to reduce the loan, are some of the safeguards with which we surround our bonds. They are standard securities and always 100% safe.

Your Choice of Two Buying Plans We sell bonds for cash or on monthly payment plan. Denominations \$100, \$500 and \$1,000. Every bond amply protected by fire insurance and guaranty policy. You can buy a bond on the partial payment plan—a few dollars will start you. 7% interest allowed on every dollar from the date of payment.

Actual 50% Return on Investment.

Because of a certain complication between the members of a syndicate that owns it, as aparament building, just completed, which is structurally, architecturally, and in polar of locat qu one of the finest in Chicago — strictly interproof — containing about 100 apartments of 2, 3, 4, and 5 rooms will be sold at a price that will assure 50% return on the investment required.

It is located one block from Sheri-dan-rd... near the inke and Lincoln park, among other structures of tike character. We represent this syndicate and our contact with their situat on enables us to offer this really exceptionally op-portunity. \$150,000 cash will recure this rili edged security, paying approximately 50% on your investment. The rental will be nearly \$200,000 and the more-gage runs for ten years, with reason-able prepayments. Information will be given only to principals or brokers accompanied by
